Technical Skills

Languages: JavaScript, TypeScript, HTML, CSS, Java

Frameworks & Libraries: React.js, Node.js, Express.js, Next.js, Zustand, Redux Toolkit, Tailwind CSS

Databases: MongoDB, PostgreSQL, Drizzle, Prisma, Redis

DevOps & Tools: Docker, Git, GitHub, REST APIs, WebSockets

Experience

Izonnet Web Solution

Full Stack Developer

Nov 2024– Present

Chikhli, Gujarat

- Delivered **4+** production platforms, including **CRM, Hospital Management, and Flight Booking systems** with **Amadeus API, Stripe, and Yapily payments**, featuring robust **admin dashboards** and automated workflows using **webhooks**.
- Built scalable **Node.js + Express.js backends** with **Drizzle ORM, MongoDB, and PostgreSQL**, featuring **RBAC, centralized logging**, and optimized data models for secure, high-performance APIs.
- Built real-time systems using **Socket.io/WebSockets** to support concurrent users.
- Developed responsive **React.js** frontends with **Tailwind CSS** and **Shadcn UI**, leveraging **Zustand** and **Redux Toolkit** for efficient state management, and implementing role-based routing, dynamic dashboards, and modern UI/UX.

V-Ex Tech Software Solution

Full Stack Developer

June 2024– Nov 2024

Vadodara, Gujarat

- Contributed to the development of full-stack web applications for **visa consultancy platforms** and **e-commerce** using **React.js, Node.js, and Express**, implementing dynamic pages, **Razorpay integration**, and optimized API performance.
- Built responsive, user-friendly interfaces with **SCSS, Bootstrap, and Formik + Yup validation** for seamless form handling and enhanced user experience across devices.

PROJECTS

FestivalFund | MERN Stack, Zustand, Tailwind CSS, Shadcn UI

[Live](#) | [GitHub](#)

- Delivered a **responsive web app** to track festival contributions(cash/items), expenses, and roles for events like Ganesh Chaturthi and Navratri.
- Built a **secure, role-based** Festival Fund manage with **JWT authentication**, dynamic dashboards for **real-time financial summaries**, automated **reports with PDF exports**, and modular CRUD modules for **contributors, contributions, and expenses** with **filters, search, and printable slips**.

ProjectBuild | MERN Stack, Redis, Queue, middleware

[Live](#) | [GitHub](#)

- Built a scalable **multi-tenant Project Management SaaS** with **role-based access, task management, Cloudinary uploads, Redis queues**, and soft delete with activity **logging and monitoring**.
- Implemented secure **JWT authentication**, API validations, and a robust backend architecture, **deployed using Docker** for reliable and scalable performance.

CodeClash | PERN Stack, Prisma, Postgress,Zustand, Judge0

[Live](#) | [GitHub](#)

- Built a full-stack coding platform (CodeClash) with a **Monaco-based editor, real-time code execution, playlists, and problem filters**, responsive UI/UX using **React, Zustand, Tailwind CSS**
- Engineered scalable **REST APIs** using **Express.js, Prisma ORM, and PostgreSQL** with secure **J** authentication and seamless integration with the **Judge0 API for code execution**.

EDUCATION

Dr. Jivraj Mehta Institute Of Technology, Anand

Bachelor of Engineering in **Information Technology (CGPA: 8.77)**

July 2019 – June 2023

Anand, India

12th (78%) – NS Vidhyalaya, Chikhli (2018–2019) | **10th (84%)** – The D.E. Italia Highschool, Chikhli (2016–2017)
